FLOWER TALK

HOW MANY FLOWERS DO I NEED TO PROVIDE?

For a single flower we need at least one flower head but we advise to send in 1-2 to ensure we can preserve the best one. We also require a small selection of the foliage/gyp/wax flower if used if you would like any included

For a multi flower, we need a minimum of 3/5 medium sized flowers (possibly more) with a touch of foliage (smaller flower head sizes not exceeding 1" each width and height. Some may be reduced in size

If you are looking to have one of the larger paperweights (4.5-6") we would need at least 15/20 flowers and foliage, ideally as many as you can spare to ensure we include as many as we can

If you would like multiple paperweights we suggest sending in most, if not all of your bouquet to be preserved. By doing this, more options can be ordered following preservation if you change your mind

FLOWER TALK CONTINUED

ARE THERE FLOWERS THAT CANNOT BE PRESERVED

Yes, there are several flowers that cannot be preserved, this is due to several factors that are out of our control

If you are unsure if your flowers cannot be preserved please send us a message/email or give us a call and we can liaise with you and/or your florist to ensure we can create a stunning keepsake for you following your wedding day

We also have a list available on our website FAQs.

I WANT TO PUT FLOWERS ON A MEMORIAL GRAVE CAN I STILL DO THIS?

Of course, we know how important this is to so many of our couples. We do not always need the whole bouquet. We can also have flowers from your centrepieces/table arrangements if they are the same to ensure you can still leave a part of your day with your loved one/s

DO I HAVE TO DECIDE NOW?

No, you can pay a £99.00 deposit & this will reserve your flowers space following your wedding date and we can discuss your options following their arrival or nearer the time
